DIRECTORS' ANNUAL REPORT FOR THE FISCAL YEAR ENDED JULY 1, 1967.

TO OUR SHAREHOLDERS:

During the fiscal year which ended July 1, 1967, the Company's profits were affected by two unfavourable factors: one of these was wage costs, which were substantially increased, and the other was lower net selling prices, which were necessary to meet competitors' action.

On the other hand, the Company's sales continued to increase throughout the year. In addition, capital expenditures and continued improvements in several areas of operations, resulted in further increases in operating efficiency.

However, these positive developments were not substantial enough in their effects on profits to offset the higher wage costs and the lower net selling prices. Consequently, net profit after tax for the fifty-three week period ended July 1, 1967 at \$512,829, or \$1.46 per common share declined from \$674,271, or \$2.01 per common share for the fifty-two weeks ended June 25, 1966.

Net sales for the fifty-three weeks of the fiscal year under review, amounted to \$39,328,569. Adjusting this to a fifty-two week basis, our net sales were \$38,586,521 compared to \$37,541,490 for the previous year, representing an increase of 2.8%.

Capital expenditures for bakery equipment, buildings and land—which were necessary to maintain a high level of production efficiency—increased during the year. These outlays amounted to \$1,047,995 compared to \$666,483 for 1966 and \$676,994 for 1965. A major part of the increase was for the installation of an additional production line in our Toronto variety bakery products plant. This investment was required to provide

sufficient production capacity for the next five years.

The higher capital expenditures during the year were reflected in a decrease in our working capital which stood at \$461,076 on July 1, 1967 compared to \$911,457 for the previous year.

The retirement of the Company's 4\%% sinking fund bonds, due October 1, 1967 will be financed by the proceeds of a \$1,000,000, 7\% bank loan which is repayable in equal annual instalments over the next five years. The Company's long term debt has been reduced by \$1,973,497 during the past ten years and now stands at \$1,200,000.

We have continued to diversify and expand our product line and in doing so, have concentrated our efforts on those products which our market analyses indicate have the strongest growth potential and improved profit margins. During the year, we directed our efforts in this respect mainly

to the production and marketing of an outstanding quality line of snack cakes.

Also, as part of our efforts to broaden our marketing base, we will be launching, this fall, an exciting new line of cheese flavoured corn snacks—another product with important growth potential.

Finally, it should be noted that your Directors' optimism about the coming years—particularly in the areas of new marketing opportunities and improved operating efficiency—is based on the performance of a strong Management group and the exceptionally fine attitude and diligent work which characterize your Company's Employees and Dealers.

For the Board of Directors.

PRESIDENT

CONSOLIDATED BALANCE SHEET / CANADA BREAD COMPANY

JULY 1, 1967

To the Shareholders of Canada Bread Company, Limited:

AUDITO

We have examined the consolidated balance sheet of Canada Bread Company, Limited and its subsidiary companies as at July ended on that date. Our examination included a general review of the accounting procedures and such tests of accounting records

In our opinion the aforementioned consolidated financial statements present fairly the financial position of the companies as a date, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

Toronto, Canada, August 16, 1967.

This bake oven, in use at the Black Creek
Pioneer Village on the outskirts of Toronto, was erected by
The Canada Bread Company, Limited as a Centennial Project. As a
replica of ovens used a century ago, it stands as a reminder of
the importance of bread products in our country's growth.
